Q: What is a word or phrase for someone who has regrets about a child they could have had but did not? I am trying to find a phrase or word for someone who says "I was so lonely when I was child and my parents wouldn't let me have a sibling and I am so sorry I didn't have a sibling to grow up with." A: We would say he/she would have had a sibling Having siblings is considered a sign of happiness and prosperity. - answers.com This is commonly used in situations where there is regret over something that can't be changed. A: A better, less poetic description would be "regretful in the wake of their (or some situation in the past)." A: regretful: guilty about or sorry for something, to have a "regretful disposition". regretful [adj] (of a person) having a feeling of regretful longing for or about something, an emotion often brought about by unexpected loss; sorrowful or sentimental; also: (of a person) feeling regretful, apologetic, or guilty about something [Merriam-Webster Online] This is not a single word, but a phrase, and the most common phrase is "regretful in the wake of (a loss)". Share BAMBOOIA LILI LOW TOP PICKUP JACKET Outdoor life...wading in the surf, heading into the river to fish in the summer and being home when the snow begins to fall in the winter. There's a little bit of this and a little bit of that in a bamboo jacket. Made with duck down feathers on the hood, and constructed with a breathable lining for summer's hikes, this pick-up is crafted with your adventures in mind. Administration of 4-hourly subcutaneous insulin to newly diagnosed type 1 diabetic patients: three-year retrospective analysis. We have analysed the effects of three regimens of insulin administration on glycaemic control in new patients with Type 1 diabetes, and the impact on such control of patient-related variables such as patient age and duration of diabetes. We have studied two groups of insulin treated patients. The group treated with four hourly subcutaneous insulin and a breakfast only regimen ("SC") comprised 14 patients; the group treated with rapid or modified

Fill Layers allow you to place one layer over another and paint or apply various effects directly on top of the two layers. When you are done with the effects, you can go back and adjust them on their own layers. Direct Selection tool allows you to isolate an area of the image easily. This is especially useful for creating seamless rotations and transformations. Eyedropper is one of the most often used tools. It allows you to easily copy the color from anywhere in your image and paste it where you want it. You can use it to alter the color of your images easily. The Hand Tool allows you to use brushes, pens, or even fingers to paint an effect or create a stroke in your image. The Dodge and Burn tools offer a quick and easy way to highlight or darken an object or an area in your photo. The Gradient tool gives you an easy way to create or change your color palette. It also helps you to blend colors together. The Liquify tool lets you manipulate and transform your image. You can move, change or even stretch certain parts of your image. It is often used for applying different types of effects or for creating special edits. The Pen tool lets you make freeform shapes using only the paths in your image. The Rectangular and Elliptical Marquee tools allow you to select an area in an image and cut or copy it. The Rotate Tool turns an area of an image, a layer or even an entire image. It also allows you to add perspective when rotating an image. The Spacing tool lets you specify the distance between two paths. For example, you could use this tool to make your text smaller or bigger, depending on how far apart you keep them. The Text tool lets you type out text anywhere you want. It is useful for creating titles, labels and captions, and for adding text anywhere to your images. The Warp tool lets you distort the surface of an image. It is useful for creating special effects or for animating a design. Portrait or Portrait Photography Recording details of people People often have flaws which include wrinkles, small moles, pimples, sagginess, uneven skin tone, wrinkles, etc. These flaws, if left untreated, can easily be captured by a camera as part of a recording. This is called a photograph of portrait. The process The most important part of a portrait session is the preparation. It consists of
