AutoRunnerU Crack+ Activation Download

AutoRunnerU Serial Key, a fully portable application designed to launch any file, document, or folder automatically as soon as a USB flash drive has been connected to the computer. Once set up on your PC, AutoRunnerU does not require further user interaction. It opens the "Send to" menu in Explorer, offering fast access to all file types supported by Microsoft Windows, such as *.doc, *.xls, *.exe, *.zip, *7z, *7-zip, *.mp3, *.mp4, *.3gp, *.jpg, *.avi, *.mpg, *.png, *.mov, *.m4v, *.iso, *.zip, *.mp3. The program can also be set to open folders when needed, and it can launch applications like Visual Studio, Eclipse, Skype, Nero, Kazaa, RealPlayer, Avast, ClamAV, Avira, AVG, ScanDisk, ThreatDefender, Trojan, and many others when a flash drive is connected. AutoRunnerU has been tested on a Windows 7 (32-bit) and a Windows 7 (64-bit) computer. It has also been tested on OSX 10.10.5. The program comes in the form of a portable application. AutoRunnerU is an easy-to-use piece of software that provides users with the possibility to set up their computer to launch specific applications as soon as a removable drive is connected via a USB port. A simple interface The application comes with an intuitive installation process, albeit it does require a computer restart to start working properly. As soon as it is ready to use, however, the tool provides users with a very simple and straightforward interface with fast access to its various functions. Configurable with simple user rights, the program is suitable for all kind of people and does not require advanced computer knowledge to be operated. Automatically launch apps The utility can be set to start desired files automatically, as soon as a USB drive has been inserted in a port on the computer. This feature can prove highly useful when connecting drives that haven't been scanned for malware, as users can set it to launch the anti-virus or another security program of their choice. The program has been designed with an integrated checksums-function, which can increase the security of the computer, especially when using portable applications. Configure multiple users The program includes support for opening folders when needed, and can also be customized to launch the “

AutoRunnerU Crack +

Program Description: 2. AutoRunnerU Screenshots: 3. AutoRunnerU is available for the following operating systems: AutoRunnerU Free Download is a software product developed by Off-Hook AutoLoader. After our trial and test, the software was found to be official, secure and free. Here is the official description for AutoRunnerU: "AutoRunnerU Free Download, an application designed to help you automatically launch your favourite programs the moment a removable drive is connected to your computer via a USB port. The application provides the ability to configure an auto-launch function that can start any desired programs when a connected drive is detected. This function can be easily configured to run the WinExec.exe process, so that the programs your computer currently launch automatically after reboot will be launched instead of the WinExec.exe process. AutoRunnerU can also be configured to launch the 'Send To' menu in Explorer, if users choose to do so. The program comes with an intuitive interface, which can be customized and set for each user account on the computer on which it is installed. As soon as the application is customized, it runs in the background and no further user interaction is required. It also includes a checksum-function which can be useful to ensure the users to scan the connected drives for malware. The application is suitable for all kind of users, and provides them with the possibility to launch any Windows application the moment a USB drive is connected to their computers. AutoRunnerU has been designed to work with all the most popular USB drives, such as flash drives, memory sticks, and external hard drives." -- Homepage of AutoRunnerU.
